Education:

Delaware County Community College

AAS, Computer Programming

GPA: 3.63 | *2022 - 2023* | *Media, PA*

President's List - Spring 2023

LinkedIn

Experience:

Leo Club Volunteer / Folsom, PA / August 2018 - June 2019

- Enhanced local community events: Orchestrated a captivating Halloween experience through creative prop setups and intricate pumpkin carvings.
- Contributed to the LunchOn program: Facilitated the donation of over a hundred free meals to elderly seniors in need.
- Supported families in need: Organized and arranged children's toys for distribution to families experiencing hardship.

Relevant Classes:

- Network Communications: Explored principles of data communication and networking protocols.
- Web Page Development: Hands-on experience in designing dynamic web pages using HTML, CSS, and JavaScript.
- Intermediate Java Programming: Developed advanced Java programming skills for creating robust applications.
- Object-Oriented C++: Solid C++ programming with a focus on object-oriented principles.
- Data Structures and Algorithms: Learned to design and implement essential data structures and algorithms for efficient problem-solving.
- Cloud Computing MS Azure: Explored cloud technologies, with a focus on Microsoft Azure for scalable applications.
- jQuery/JavaScript: Developed skills in using jQuery and JavaScript to create interactive web content.
- Linux Operating Systems I: Gained a foundational understanding of Linux, including command-line navigation and system administration.
- Public Speaking: Developed effective communication and presentation skills for delivering compelling speeches to various audiences.
